

Chem Resist Pipework Systems Division offers reactive, short timescale modifications, as well as turnkey large scale pipework installations.

Chem Resist Pipework Systems Division are specialists in working with heat fused thermoplastics for handling corrosive solutions. Key advantages of the division are:-

- Short response time solutions
- Site visits to assess requirements
- Significant experience in full Turnkey Installations
- Pipework offered in Polypropylene, High Density Polyethylene and Fluoroplastics such as PVDF
- Calculations undertaken to confirm adequate bracketing and expansion
- Design facilities offered to ensure chemical compatibility at a range of temperatures and pressures
- A broad range of chemical resistance
- Corrosion resistant materials for internal and external use
- Highly skilled installation teams
- Bespoke fabrications such as small scale pickling lines & actuated damper units
- Extensive fabrication facilities
- Working alongside Chem Resist Process Plant and Fluids Transfer to enable Turnkey Installations including Tanker Offload Systems, Chemical Storage Tanks and transfer to process
- UK wide coverage

Thermoplastics for the transfer of corrosive chemicals can very often offer a more effective solution, more economically than exotic materials which have historically been used. Our team are always happy to discuss a bespoke solution for your needs.

“The best preparation for good work tomorrow is to do good work today.”

About Us

Chem Resist Group Limited are a long established and successful group of companies operating across both the UK and worldwide.

We are continually focussed on our commitments to our customers, product innovation and the highest levels of services and safety. We are able to offer an extensive product portfolio, from thermoplastic process plant through to an extensive range of pumps and on-site repairs and modifications.

Our policy of continual company improvement, efficiency and service makes Chem Resist Group Limited an excellent organisation to deal with.
