APPLICATION

The general purpose compact junction box mounts directly on a level sensor or fitting assembly to provide convenient wiring and conduit termination. Offered in two sizes, select the LC05 for multi-point switch installations on Smart Trak™, and the LC06 for single-point switch installations on Switch-Pak™ or an individual level sensor. A removable terminal strip with slot mounts is provided for termination.

FEATURES

- Rugged PP enclosure with removable cap rated NEMA 4X
- Swivel base enables enclosure rotation for conduit alignment
- Offered in two sizes for single-point and multi-point installations
- Removable socket terminal strip for convenient wiring termination
- Compatible with Smart Trak™ and Switch-Pak™ installation fittings
